

QRG - Turn Off Pop-up Blockers

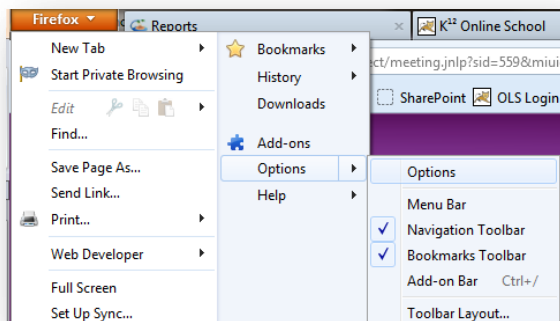

Internet Explorer:

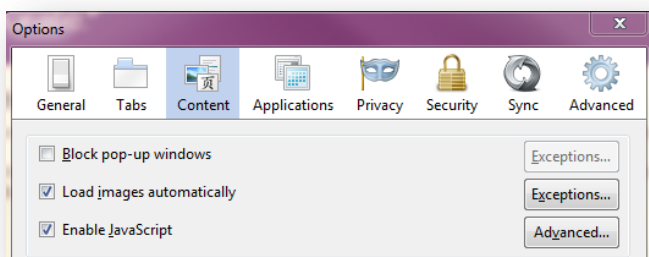

The tools menu might be in a different place – if the browser you are looking at doesn't look exactly like this, just try to find the Tools menu and go from there.

Firefox:

Go to the menu at the top of the browser and look for Options→Options

In the Options box, go to the Content area and uncheck the box for Block pop-up windows:

Your browser may look a little different if you have a different version, but the same idea should apply – look for similar menus and options.
